EP3831282

KEYWORDS

Extension of time limits under Rule 23 RoP...

PROCEEDINGS
Infringement action

Remote monitoring of analyte
measurements

SUMMARY

The Local Division in Paris ruled on an infringement action. The patent at issue relates to remote monitoring of analyte measurements. According to the headnotes of the decision, when multiple defendants are involved in proceedings, the court may extend and align filing deadlines to ensure procedural fairness across all parties. The court accepted an oral agreement reached by all parties at a case management meeting regarding the deadline for filing the statement of defence, finding the agreed date to be reasonable.
